SMILE AND START THE DAY WITH A CUP OF THE BEST Coffee in the WORLD !

A crucial moment in my morning routine is to start with a great cup of coffee. This sets the tone for the rest of my day.

This exhibit shows how stamps celebrate coffee in Guatemala, from planting the seeds to brewing a delicious cup.

Postal stamps have been used to immortalize important people, places, or dates for different countries, and Guatemala is no exception. Due to the fact that one of the most produced and exported products in Guatemala is coffee, this fruit is important for its history and impact on the economy.

In 1985, two series of stamps were issued to represent the coffee production of this country.
