

## Swiss PVI

Mailing an item via a Postal Clerk from the Swiss Post Office results in them using a "PVI" (Postage Value Indicated) strip as postage (similar to here in the USA) rather than regular postage stamps (unless one asks first).

The above examples are "make-up" PVI strips based on a Priority Level "B" mailing of over 100g (3.5 oz) weight.

The actual domestically (in Switzerland) mailed envelope shows a "Priority A" level and cost 1 CHF (~ \$0.95).

The "Pro Clima" ("for the Climate) logo is currently being used.
