

The World's Best Selling Car

One would think that the Volkswagen Beetle is the best selling car in the world ...
... and it was at some point in the past.
With 22.3 million built since 1948, it ranks as the world's 4th best selling vehicle.

Actually, the world's best selling automobile model is the Toyota Corolla,
with over 32 million built from 1966 to present day!
