

# VISIT TO A MUSEUM

Museum is a building which displays antiques, ancient artifacts, famous work of arts for benefit of students, admirers, etc. Recently I had an opportunity to visit Kolkata Museum where numerous articles, sculptures and famous paintings are displayed.

Musical instruments used by wandering minstrels are preserved for display.

In archeological section one can see relics from past - Indian as well as foreign.

The history section was full of ancient objects belonging to the various periods in history.

The painting gallery has a main section displaying Indian Miniatures wherein Mithila Paintings done in Madhubani Art form are displayed.
