

MASTER HEALERS OF AYUSH

Ayush which comprises of Ayurveda, Yoga , Unani, Sidda and Homeopathy are medical sciences which is related both to the individual's body as well as its wellness. These fields of medicine has been in practice since early days as they involve balancing of all energies and vatha, pitta and kappa or creating natural resistance to overcome the imbalance by practice of this through natural herbs and exercises. A mention can be made with reference to Ramayan where Rama tells Hanuman to bring a herb from the Sanjeevini hill to bring Lakshman to his conscious form. So their importance cannot be ignored while some have died due to the secrets not being passed on from one generation to another. The display shown consists of these masters in their pursuit to revive these forms of medicare.
