by Ray E. Cartier  
A humorous look at the serious game of golf

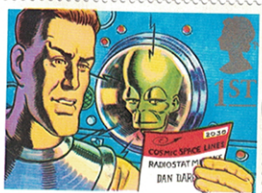

All golfers would like to hit their ball, like a pro – but most are just who are happy to just and sink their putt into the cup. **but most are just swingers --- get to the flag ---**

While most are happy by getting a "birdie" --- there are legions or a Hole in 1. That would put But most golfers are more inclined to get a double, or or even a triple Bogie. **who want an "eagle" --- smiles on their faces!**

They go out in foursomes, but - we know that Washington didn't golf is because he never told a lie. Most golfers spend a lot of time, looking for their ball --- and the most heard word on a golf course golf is "DAM, DAM, DAM!!!!"

There are some whose consciences bother them when they fill out their score cards. But there are others who really have no conscience. Even Alan Shepard said of his shot on the moon, "It went for miles & miles" when it went only 25 feet. Oh well – S'nuff is s'nuff. **FORE!**
